THE BEECHER-TILTON SCANDAL.

A New Vein Struck--Developments Tending to Show Beecher's Innocence and the Schemes of a Conspiracy against him.

NEW YORK May 3 --The *Herald* publishes a Rochester special attributing to Henry Ward Beecher's lecture agent the statement that Beecher s counsel will institute proceedings against Tilton and Moulton on a charge of conspiracy against Beecher It is claimed these proceedings will be based on new developments made by a party unnamed The *Herald s* correspondent says this party was in the confidence of Tilton and Moulton through all They dared not trust each other and he was the middle man to whom all secrets were confided He was custodian of all papers showing a conspiracy and at the same time took full memoranda of conferences and conversations These show every point of the conspiracy and lay bare the entire plot to ruin Beecher The alleged new witness is stated to have written to newspapers articles bitterly denouncing Beecher He may at first have been honest in opinion but subsequently discovered the plot During the trial of Beecher the counsel for the defense frequently came close to clews which would have ruined all but they did not happen to get hold of the facts that would have shown the whole case in its true light It is claimed that the witness statements from personal knowledge are supported by papers and documents so overwhelming as to be absolutely incontrovertible and that when made public they will set Beecher rightfully forever before the world The witness says Tilton always knew his wife was innocent of charges of improper intercourse with Beecher and that in the conference of Tilton, Moulton and himself, Tilton used to show anger if either of the others alluded to the matter as though it was a fact

NEW YORK May 3 --While the *Herald s* Rochester dispatch about the new Beecher Tilton developments is erroneous in some details, its general statement as to what is expected to be developed is substantially true The new witness who declines to be interviewed is Jas B Mix He was brought up on the New York *Times* and subsequently was long employed on the *Tribune* For several years he has held a responsible position in the New York postoffice As he New York correspondent of the Chicago *Times* he first published the Beecher scandal in that paper Nobody except the principals probably know its inside history so well as Mix does. His connection with and knowledge of many important facts grew out of his seven years confidential agency of Victoria Woodhull, who really held the key to the bottom facts by means of many private letters and papers written by Tilton and Moulton and some by Moulton s wife All these are in Mix s hands whose personal knowledge of the circumstances are claimed to thoroughly complete a chain of testimony regarding what promises to be the most interesting chapter in the whole history Mix has not met Beecher on the subject, but has been thoroughly examined by the latter's counsel, who pronounced his evidence conclusive of the case. Among the points claimed to be established are these

1st Tilton s failure to tell the whole truth on the witness stand and his positive misstatements and concealments as to time and circumstances of his becoming acquainted with and his relations to the Woodhull

2d That Mrs Tilton s compromising letters were in fact written at her husband s dictation

3d Tilton s successful arrangements for Woodhull s all night sojourns at his own house despite Mrs Tilton's bitter remonstrance and at Moulton s house with the assent of the latter and cooperation of the latter s wife

4th The strong support to Beecher s explanation of the ragged edge and kindred letters and showing that the wrong regretted was as Beecher swore simply and solely Tilton s loss of employment through Beecher s complaint of his immorality and that these were in fact deliberately drawn out with the purpose of using them as circumstantial evidence to cast suspicion upon Beecher s morality

5th That Beecher s letter to Mrs Tilton requesting her to confide in Moulton was written at the latter s request from the exact native assigned by Beecher on the trial but that it was obtained by Moulton only to be used as part of the trap set for Beecher s feet

6th How the interviews of Victoria Woodhull with Beecher were carefully planned and effected by the conspirators while Mr Beecher supposed that they were entirely accidental Despite efforts to confine the new issue to the parties already involved it is doubtful if the reopening of the scandal can fail to incidentally compromise several persons of some note hitherto unaffected Friends of Mix give as a motive for his disclosure the fact that he was for a long time made the blind tool of the conspirators before obtaining true clews to their purposes and that now he feels it due to himself and the public to make the facts known

Turks becoming Intractable.

LONDON, May --Though Russia is believed to have secured Austria s neutrality, her military situation in Turkey is now regarded as exceedingly critical The attitude of the Turkish soldiery is reported more favorably than ever Before the alliance with the English troops a month ago Russian interference seemed on the point of carrying everything before it, but now the porte seems more intractable than ever and the Turkish army is so strong that the threats of the Russians have little effect The Turks have entrenched positions and are scarcely inferior in number to what the Muscovites can mass so that the most serious attack might be resisted until help could come from elsewhere Therefore it is not considered likely they will accede to the evacuation of Shumla Varna and Batoum even to get the Russians further away from the neighborhood of Constantinople

[Cincinnati Enquirer April 2d]

A member of the *Enquirer* staff returning from the east met Hon Thomas Hendricks of Indiana and Hon William Eaton of Kansas, on the cars last Sunday Mr Hendricks had been to Philadelphia and Mr Eaton to Washington. The conversation drifted into a review of the last presidential contest during which its errors and its blunders and what might have been the result but for these were quite freely spoken of Mr Eaton is a member of the national Democratic committee and has been such ever since the memorable Charleston convention and is thoroughly posted in the history of the different presidential campaigns since that time He is firmly of the opinion that Tilden s management of the last campaign was as great a botch as ever he had known An ardent believer in the greenback he was not in favor of the nomination of Slippery Sam at St Louis, and seeing that old Bill Allen had no chance there he did all in his power to secure the plate for Gov Hendricks It was no use though said he Tilden had sent a big fellow named Pinley to the Northwest and backed him with plenty of money to use in his interest He went first into Michigan, and his line of argument was that Tilden was an immensely wealthy man worth over $7 000 000 and that he was willing to spend $ 000 000 of this money in the campaign But Tilden wasn t worth any such sum interposed Governor Hendricks I doubt if he was worth more than $ 500 000 Still he is a very rich man I know he was not as rich as he was represented continued Mr Eaton yet the tale was believed and it had its effect Finley went from Michigan into Iowa Wisconsin Minnesota and other states in the vicinity and succeeded by appealing to the cupidity of every impecunious Democratic editor in enlisting the assistance they hoping to be remunerated for their work after the nomination St. Louis was filled with these claquers when the convention met and their noisy gabble induced the southerners who were only anxious to get the control of their state governments and to relieve themselves of military tyranny to believe that he was the only man who could be elected if nominated, and so he procured their support

The St Louis platform then became the subject for consideration during which Mr Eaton said to Mr Hendricks Governor if Dorsheimer s interpretation of the meaning of the platform had been adopted as orthodox I don t think you would have accepted the nomination for the vice presidency on it, would you Governor Hendricks thus appealed to replied No, I should not Dorsheimer was too much elated at the victory of Tilden then to be taken as authority on the meaning of the platform He modified his views considerably afterwards and when he came into Indiana during the campaign his speeches pleased our people very much and were unexceptionable on the money question plank of the platform One young man having ventured the opinion that Ohio could have been carried for Tilden had proper exertions been made to induce enough of the dissatisfied Republican miners of the Tuscarawas and Mahoning valleys to vote the Cooper ticket to destroy the Republican majority Mr Eaton said Why Ohio had no right to expect twice the amount of financial aid that Indiana did I was told so by Tilden himself Who got this money asked our youth Well John Thompson got $40 000 of it responded Mr Eaton and then he added I am most decidedly against the use of money in a political campaign You know governor the bulk of it is misapplied and goes into the pockets of a lot of political dead beats some of whom have not made a dollar outside of politics in twenty years

That is so replied Governor Hendricks the only legitimate use to which money can be applied is for the payment of the expenses of speakers and the printing and distribution of campaign documents

I wonder how much Tilden did spend in the campaign? said our representative Directly about $[illegible] 000 was Mr Eaton s response though Hewitt told me that he and Cooper his brother in law had spent about $1 0 000 additional He said he thought Tilden should remunerate them for this expenditure I learned afterward that Tilden [illegible] all but about $10 0 0 apiece of this sum [illegible] probably paid them in full by this time

The chances of the [illegible] candidates for the next presidential campaign were then considered [illegible] Mr Eaton [illegible] Tilden was [illegible] out of the race as the people did not regard [illegible] to rally around and his [illegible] did not arouse any enthusiasm among them On the contrary he thought that Governor Hendricks had the inside track for the [illegible] in Washington City they are [illegible] Thurman [illegible] the chairman of our committee is [illegible] and so are nearly all the Democrats [illegible] While I was there I was approached [illegible] Governor [illegible] By the way old Bill Allen at [illegible] I was very much [illegible] Bill who is one of the noblest [illegible] Governor Hendricks [illegible] We were talking [illegible] Thurman [illegible] of mine was [illegible] principles [illegible] he has turned his face to Wall street and his back to the cornfields of Ohio and by ---- he s one of us no more Governor Hendricks laughed heartily at this anecdote and shortly after said The papers were after me with a sharp stick not long since because I did not come out and give my opinions on the silver question Now I was not a member of the house of representatives or of the senate and I did not see any good reason for rushing into print on the subject unsolicited I was all right on the question as my friends well know

SWAMP LAND CANDIDATES

AN ARGUMENT THAT BEARS A SUGGESTIVE RESEMBLANCE TO A SWORD ED SW RD--BEEKMAN APPLIED FOR 5 00 ACRES AND THAYER FOR 100 000

[From the Jacksonville Sentinel

Our contemporary in the absence of anything else to say argues that Mr Beekman refers to the fact that he is an owner of swamp land This is strictly true Mr Beekman applied for five thousand acres subsequently three thousand acres of this was listed to the state, and Beekman owns it in connection with two other citizens making him the owner of one thousand acres of land--fairly purchased and honestly paid for Is there anything wrong about it? His own money bought it, he uses it and pays taxes on it If a man is a rascal because under sanction of law passed by a Democratic legislature he purchases land belonging to the state on its own terms, then some of the party friends of the *Times* are deeper in the swamp than Mr Beekman According to Grover's report W W Thayer is a grabber of *one hundred thousand* acres of swamp Thayer is the candidate of the *Times* for governor T G Reames was modest and only purchased *five thousand* acres Mr Reames is the Democratic candidate for secretary of state "Honest John Whiteaker" the Democratic candidate for congress went in for *twelve thousand* acres J N T Miller democratic candidate for state senator in Jackson county has as good a title as the state can give for *six thousand one hundred acres* So stands the record We find no fault with any of these gentlemen We do not believe that either Thayer Reames or Whiteaker were concerned in the shameless lobbying that secured the passage of a bill we never approved of and we know that Mr Beekman was not But we do know and it is an undisputed fact that all the Democratic representatives from Jackson county were in quite indecent haste to reap the benefits of the bill So eager were they that they actually run a race to the governor s office with their applications only to find that some of their colleagues had "filed" on every valuable tract the day before the passage of the act Mr Beekman s application was three months later We are glad the Democratic papers have agitated this question It shows that their contempt for every decent argument is about balanced by their ignorance and we *dare* them to publish the official list of the swamp land applicants giving the political complexion of every one and the number of acres applied for So far they have the advantage in their ticket both as to number of candidates and number of acres On our side C C Beekman and R F Earhart apply for eleven thousand six hundred and sixty six acres On the Democratic side W W Thayer T G Reames and John Whiteaker apply for one hundred and seventeen thousand acres and if they have no title for it the act only shows that they were willing to grab more than they could pay for If it be wicked to buy swamp land then the anti swamp land voters must judge whose crime was the greatest and vote against them We advise our Democratic friends that no silly charges no untenable argument will injure any candidate on either side and if they will strike with a two edged sword they must remember that it will cut both ways

THE VOICE OF YAMHILL

UNIVERSAL OPPOSITION TO MR MITCHELL--YAMHILL REPUBLICANS PROMPT TO PUSH THE INQUIRY SUGGESTED IN MARION

The Yamhill *Reporter* prints the inquiry addressed by prominent Republicans of Marion county to the Republican candidates for the legislature in that county as to voting for re-election of Mr Mitchell and comments thus

Changing the name to suit the locality the above pronunciamento would apply to Yamhill county exactly and we take occasion coming so opportunely as it does, to make the application * * *

The Republicans of Yamhill county are firmly opposed to the re-election of J H Mitchell to the U S senate Why it is or how it came to be the fact, is not now under discussion It is enough to know that such is a fact, and all evidences to show that it either should or should not be so have been argued and filed away before the decision was made The men who go upon the forum this year seeking Republican votes to put them in the legislature will have no lengthy biography either favorable or unfavorable to J H Mitchell to occupy their thoughts but so sure as they appear before this public they must expect to be interviewed with one brief interrogation to wit Are you in favor of John H Mitchell for the United States Senate" An unequivocal "No sir, will be the satisfactory answer Whosoever cannot speak that little phrase in its naked candor and simplicity will save himself from cutting embarrassment by keeping off from the Republican ticket that is to come

It is to be regretted that this conflict, bearing so much of a resemblance to the old-time squabble between the people and this same man with his body guard could not have been avoided Our people have begged immunity from the load but have begged in vain It has been forced upon us notwithstanding every protest and now that it is here it is our duty to meet it with the scathing rebuke it richly deserves A decent show of modesty on the part of Mitchell and his friends might have spared him many a sting of unkindness but as they alone are responsible for it let them smart under the castigations they will get as best they may

Yamhill Narrow Gauge.

[From the Yamhill Reporter]

Work on the Dayton and Sheridan railroad is progressing with all practicable dispatch and it is possible that grading is now being done although it had not commenced yesterday A gang of 100 Chinamen has been employed for that labor and it was Mr Gaston s intention to have had them at work the first of the week, but from some cause they had not arrived up to last evening though they have been looked for daily The line has been located some distance and is being trimmed out through the woods near Dayton It begins at a point near Capt Fowell s warehouse and keeps up the Yamhill river some little distance running in a southwesterly direction so as to come out of the timber near the western boundary of the old Pierce farm three and a half miles east of this place The stakes are set near the road from Amity to St Joe, at this point, but from there on we are not advised as to its course The iron is expected to reach Oregon early in June and a contract has been made to have it brought from Portland to Dayton on the steamer *McMinnville*. The narrow gauge is a certainty and ere long the antipodes of the lovely Yamhill valley will be touching, each other through the clanking steel and iron of the Dayton and Grand Ronde railroad Hail the day and all praise to Joseph Gaston and his fellow projectors

How the Moffett Punch Wipes Out Virginia's State Debt

[Lexington Gazette

The Moffett register has been in operation in Lexington for nearly four months The amount of tax for that time is $940

This is a monthly average of $235 or an average of $26 for each register, the whole number of registers being nine

The cost of liquor thus sold and taxed amounts to $25 979 a year This is about four per cent on all the taxable property, real and personal, of the whole county It is more than double the whole county levy (exclusive of railroad tax) for roads, schools and carrying on the county government It is about thirty per cent on the taxable property of the Lexington district

Now, here is scope enough for readjustment If we can stop this drain upon our wealth, all other burdens will be but as a drop in the bucket If the people of the whole state of Virginia drink whisky as we do the Moffett register will bring into the treasury $1 500 000 or if the money paid for whisky were applied to the debt we would wipe it out--consols coupons peelers and all--in three years

The Daily Oregonian.

SATURDAY MORNING, MAY 4, 1878.

THE WAY OF IT.

The present candidate for the office of state printer refuses to admit that the printing has been executed on a vicious system. But it is of no consequence whether he makes this admission or not. The people are convinced on this point. First, in violation of typographical rules the work has been stretched so as to make an enormous increase of composition, to be paid for at high rates. But this has been only a beginning. From this point as a basis other charges have increased in geometrical ratio. More paper, press work, stitching and folding have been required. The state allows the printer ten dollars a ream for paper. The quality of paper used has been purchased for eight dollars, or less. Here would be a large profit to the printer; but it is legitimate and no objection can be made. But note now how great a swindle has been perpetrated in this matter of paper. The state has been charged with four times the amount of paper used. To print the senate journal, for instance, there was required a little less than fifteen and a half reams of paper. The printer should have been paid for it, by liberal allowance, $155. But the sheets were folded so as to make one ream count as four, and the printer drew from the treasury forty dollars for each ream of paper that he had bought for eight or less; and examination of the work shows that this grab has been followed straight through. By a similar trick the press work paid for the state has been doubled, and the system throughout has defrauded the state of almost incredible sums. For the paper in the senate journal alone, for which the printer should have received only $155, he has actually charged and been paid the sum of $620. And this is but one of almost numberless items.

The point to be made against Mr. Noltner is that having certified the correctness of the bills made on this system, he is now himself a candidate for the office of state printer. He desires for his own use and enjoyment the profits made by methods which have enabled the printer to extend the composition, double the presswork and quadruple the paper charged against the state. On this system the profits of a term are not less than forty thousand dollars. The *Standard* asserts that the law is at fault. But what word of the law commands or allows this enormous fraud in paper, composition and presswork? The plea will not answer. The object in the appointment of an expert is to protect the interests of the state, not to cover the frauds of the printing with a view to swelling the printer's emoluments.

PARIS EXHIBITION.

It is observed by a San Francisco paper, the *Alta*, that of late there appears to be some apprehension on the part of the French government that the great success which has been anticipated may not attend the Paris exhibition. The *eclat* and splendors of the second empire have passed away and a war threatens which may involve much of Europe. Political dissensions in France have much retarded proper preparations. Invidious comparisons are drawn between the splendors of the Tuileries under the imperial regime and the soberer displays at the Elysee. But the general and municipal governments have sought to turn the edge of criticism by liberal appropriations for special purposes of display. Thus the original general appropriation of $4,500,000 has been exhausted, and a request is made upon the chambers for $5,000,000 more. Yet the great imperial displays that attended the exposition of 1867 will be almost wholly lacking on the present occasion; and croakers predict that Paris will not be attractive enough to render the exhibition a successful speculation. But there will be a great influx of foreigners, and extravagant prices it is expected will fill all the coffers of Paris.

The chief of ordnance of the United States army writes to the secretary of war suggesting the advisability of deciding whether the sword and bayonet shall longer be continued in use as weapons in our army. He says: "In my mind there exists not a doubt that the days of the sabre and bayonet are numbered, and that the only question to be decided is whether the time is not already at hand when they should be discarded." Gen. Sherman, in a letter to Gen. Sheridan, supports these views, in which the latter coincides. Bullets now do the work. In the recent war between France and Germany the number of German soldiers killed and wounded was 65,160, of whom only 286 were hurt by sabre or bayonet. Of 40,000 cavalry engaged on the German side only six men were killed by sabre blows. It is not suggested, of course, that the cavalry arm of the service be abandoned; but Gen. Sheridan says the cavalryman does not need a sabre at all, but wants a rifle, revolving pistol and knife.

It is reported that the Mitchell politicians think it best, or find it necessary, to make concession to the branch of the workingmen's organization, so-called, which nominated a county ticket the other night, and that the primaries to-day will be run with a view to the acceptance of that ticket, or most of it; while the nominations for the legislature will be claimed for Mitchell, and probably conceded to him. It will cost a good deal of trouble to secure ratification of this programme at the polls.

We are favored by the publishers, Mans[illegible] with a copy of the Albany city directory [illegible] first directory of the city ever issued. It contains an historical sketch of the city which is quite interesting, and a descriptive account of the principal industries and leading business establishments; also a directory of residents. The population is stated at 3,300. This directory will be of value outside of Albany, and may be had for one dollar, postpaid, by addressing the publishers.

Another dispatch, confirming what we have heretofore published, announces that the principal objection made by the Northern Pacific company to the railroad bill as passed by the senate is that it does not allow the company to control the lands granted. It is found that this weakens the company's ability to raise money, as capitalists refuse to advance on the security of lands not entirely within the company's control.

Human nature is peculiar. Nobody wants the silver dollar now that it is coined, though recently there was a scream of loudest vehemence for it; and nobody wants gold now that the banks have plenty of it to pay out.

Mr. Tilden has been interviewed. He is not now, and never will be again, a candidate for the New York governorship or senatorship; the latter office he would not take, indeed, if it were offered to him unanimously. When pressed to say whether he would be a candidate for any other office, Mr. Tilden laughed, and said that was quite another thing.

As an epitaph for the monument to Jefferson, the Boston *Transcript* begs to suggest his memorable words, "I tremble for my country when I remember that God is just."

COMPLICATIONS OF THE BILL.

Below is the fourth section of the bill for the extension of the Northern Pacific grant. It would be difficult to devise anything more at variance with the simplicity and directness required in matters of this kind. The bill has been offered for consideration of capitalists in New York and Philadelphia, and they decline to advance money on a grant hedged about with such restrictions. We give the fourth section in full, which is the one that makes the principal conditions in regard to the lands:

> Actual settlers on any agricultural or grazing lands embraced within the grant to said company, who shall have settled thereon before the completion and acceptance of the section of the road opposite thereto, and actual settlers on any agricultural or grazing lands embraced within the said grant remaining unsold at the expiration of eight years from the completion and acceptance of the section of the road opposite thereto, if said last-mentioned lands shall, at the time of such completion and acceptance, be surveyed by the government, and if not then, at the expiration of eight years after the government surveys shall be extended over the same, shall be entitled each to purchase from said company one quarter section, or a legal subdivision thereof, on which they shall have settled, at the price of not exceeding two dollars and fifty cents per acre, excepting coal, iron and timber lands, and lands within the right of way for said railroad: *Provided, however*, That this section shall not apply to the lands already earned by said company.

H. Northup, Esq., Register in Bankruptcy, at his office in Portland, in said District, when and where any person may attend and show cause, if any they have, why the prayer of said petition should not be granted.

CITY.

COMMENCEMENT EXERCISES.—If New Market Theater can be procured, the commencement exercises of the Portland High School will be held there on the 28th June. The exercises will be separate from the annual exhibition of the various grammar schools with which they have heretofore been held in common. The graduating class is composed of Miss Mary Test, Miss Cora Yocum, Miss Ida Yocum, Miss Sophia Durkheimer, Miss Minnie Whitney, G. Frank Paxton, Ed. G. Jones, Dodred D. Shindler, Emanuel Lyon, Alvah S. Going, T. J. A. Streibig, Edgar A. Goodnough and Wm. Connell. Miss Mary Test has been chosen as salutatorian, and Mr. G. Frank Paxton will deliver the valedictory. Hon. J. N. Dolph will bestow the diplomas and will deliver the address to the class.

STONE WALL.—Mention was made some time ago of the fact that Mr. H. C. Leonard contemplated erecting, the present season, a brick building at the corner of First and A streets. The building will probably be two stories high and about 80x80 feet. The ground at that place is several feet lower than the grade of the street, and during high water in June becomes a pond. A very substantial stone foundation is now being constructed, and the work will soon be finished. The object in hurrying forward the foundation is to anticipate the freshet, and have the work all done, so that the water will not interfere with it. When completed, the building will greatly enhance the appearance of that portion of the city.

CURRENT TOO STRONG.—The other day the little steamer *Carrie Norton*, which was built by Messrs. Inkeep & Young expressly to run up the Clackamas river, made her trial trip. The *Carrie Norton* is a neat, trim looking craft and runs very well. We are informed, however, that the little steamer was not successful in ascending the Clackamas. Just above the mouth of that stream there is what is known as the Rinearson rapids. At that point the current is very swift, and proved too strong for the steamer. After making several ineffectual attempts to stem the current, the *Carrie Norton* returned to this city. Yesterday she went up the river again, and probably met with better success.

CARPENTER WORK.—According to the contract, masonry work will not commence on the new building of Messrs. Reed & Failing, as the brick can not be delivered on the ground before Monday. In the meantime carpenters are improving the unavoidable delay in the commencement of the work. A considerable quantity of lumber has been hauled on the ground, and a force of men are engaged in preparing the joists, on which will rest the first floor, and getting them in readiness to place down. This building will probably be ready for occupancy by the middle of August.

OPEN TEMPERANCE SOCIETY.—A very large audience was in attendance at the meeting of the open temperance society at the hall of the Young Men's Christian Association on last Saturday evening. Excellent speeches were made by Prof. Cederstrom, Mr. Clarno, Mr. Payne and others, and the meeting was very enthusiastic throughout. It is expected that the meeting this evening will be a success in every respect and the public are cordially invited to attend. Exercises, as usual, commence promptly at half past seven.

INVITATION EXTENDED.—At a meeting of the congregation of the First Baptist church, held Tuesday evening, it was voted to extend an invitation to Rev. H. W. Brown, of San Francisco, to visit Portland for the purpose of holding a series of Bible meetings. Rev. Mr. Brown has charge of the principal Baptist church in that city. He is said to be a man of great power, his principal forte being reading and explaining the scriptures, more than in preaching. He has been in San Francisco only a few months.

MEDAL OF HONOR.—Recently Mr. John Nelson, of this city, received a medal of honor from the King of Denmark, for valiant services during the war between Denmark and Germany, in 1864. The medal is very neat in design and properly inscribed. It was presented to this gentleman, and to eleven others only, who, during a perilous onslaught of the enemy, maintained a hazardous and dangerous position of importance against fearful odds.

THE BERRY CROP.—The *Telegram* learns from Mr. H. Hansen, the seedsman, that the late severe frosts killed some of the early strawberry buds on the berry farms on the east side of the river, but that the crop will be a good average, which will make berries cheap in this market. The annual crop of strawberries on the east side of the river is nearly three hundred thousand pounds, Portland consumes over one half of the product.

PRIMARIES—CONVENTION.—By order of C. E. Sitton, chairman of the Democratic county committee, the primary conventions are called on Wednesday, May 15th. On Saturday, 18th inst., the Democratic county convention will be held at the courthouse in this city, at 10 o'clock A. M., for the purpose of nominating a full legislative and county ticket for the approaching election. The convention will consist of 66 delegates.

ALUMNI MEETING.—Next Monday we learn that there will be a meeting of the graduates of the high school of Portland in the school room of the central building, to take preliminary steps toward the organization of an Alumni Association. It is the intention of holding a reunion of all the graduates of this institution during commencement week. Graduates are requested to attend the meeting next Monday evening.

WHARF IMPROVEMENT.—The work on Capt. Flanders' new wharf at the foot of B street is progressing very rapidly, and at the rate at which operations are being now pushed this new and important improvement will soon be completed. Most of the new flooring has been laid, and the timbers for the second story for a portion of the way has been raised. Within a month the new wharf will be completed.

CITY.

COMMENCEMENT EXERCISES.—If New Market Theater can be procured, the commencement exercises of the Portland High School will be held there on the 28th June. The exercises will be separate from the annual exhibition of the various grammar schools with which they have heretofore been held in common. The graduating class is composed of Miss [illegible] Test, Miss Cora Yocum, Miss Ila Yo[illegible], Miss Sophia Durkheimer, Miss Minnie [illegible], O Frank Paxton, Ed G Jones, [illegible] Shindler, Emanuel Lyon, Alvah [illegible] T. J. A. Strebig, Edgar A. Gould, [illegible] and Wm Connell. Miss Mary Test has been chosen as salutatorian, and Mr O Frank Paxton will deliver the valedictory. Hon J N Dolph will bestow the diplomas and will deliver the address to the class.

[illegible] WALL.—Mention was made some time ago of the fact that Mr H C Leonard contemplated erecting, the present season a brick building at the corner of First and A streets. The building will probably be two stories high and about 80x80 feet. The ground at that place is several feet lower than the grade of the street, and during high water in June becomes a pond. A very substantial stone foundation is now being constructed, and the work will soon be finished. The object in hurrying forward the foundation is to anticipate the freshet, and have the walls all done, so that the water will not interfere with it. When completed, the building will greatly enhance the appearance of that portion of the city.

[illegible] TOO STRONG.—The other day the little steamer Carrie Norton, which was built by Messrs. Inkeep & Young expressly to run on the Clackamas river, made her trial trip. The Carrie Norton is a neat, trim looking craft and runs very well. We are informed, however, that the little steamer was not successful in ascending the Clackamas. Just above the mouth of that stream there is what is known as the Rinearson rapids. At that point the current is very swift, and proved too strong for the steamer. After making several ineffectual attempts to stem the current the Carrie Norton returned to this city. Yesterday she went up the river again, and probably met with better success.

[illegible] WORK.—According to the contract masonry work will not commence on the building of Messrs. Reed & Failing, as the brick can not be delivered on the ground before Monday. In the meantime the workmen are improving the unavoidable delay [illegible] commencement of the work. A considerable quantity of lumber has been hauled on the ground, and a force of men are engaged in preparing the joists, on which will rest the first floor, and getting them in readiness to place down. This building will probably be ready for occupancy by the middle of August.

[illegible] TEMPERANCE SOCIETY.—A very large audience was in attendance at the meeting of the [illegible] temperance society at the hall of the Young Men's Christian Association on last Sunday evening. Excellent speeches were made by Prof. Cederstrom, Mr Clarno, Mr [illegible] and others, and the meeting was very [illegible] throughout. It is expected that the meeting this evening will be a success in every respect and the public are cordially invited to attend. Exercises, as usual, commence promptly at half past seven.

[illegible] EXTENDED.—At a meeting of the congregation of the First Baptist church, held [illegible] evening, it was voted to extend an invitation to Rev. H. W. Brown, of San Francisco, to visit Portland for the purpose of holding a series of Bible meetings. Rev Mr. Brown has charge of the principal Baptist church in that city. He is said to be a man of [illegible] power, his principal forte being reading and explaining the scriptures, more than [illegible]. He has been in San Francisco only a few months.

[illegible] OF HONOR.—Recently Mr John [illegible], of this city, received a medal of honor from the King of Denmark, for valiant services during the war between Denmark and Germany, in 1864. The medal is very [illegible] and properly inscribed. It was presented to this gentleman, and to eleven others only, who, during a perilous onslaught of the enemy, maintained a hazardous and [illegible] position of importance against [illegible] odds.

[illegible] CROP.—The Telegram learns from [illegible], the seedsman, that the late frosts killed some of the early strawberry [illegible] on the berry farms on the east side of the river, but that the crop will be a good one, which will make berries cheap in the market. The annual crop of strawberries of the east side of the river is nearly three hundred thousand pounds, Portland consuming one half of the product.

[illegible] CONVENTION.—By order of C [illegible] chairman of the Democratic county committee the primary conventions are [illegible] Wednesday, May 15th. On Saturday, [illegible] inst., the Democratic county convention will be held at the courthouse in this city, at [illegible] o'clock A. M., for the purpose of nominating a full legislative and county ticket for the approaching election. The convention will consist of 66 delegates.

ALUMNI MEETING.—Next Monday we learn that there will be a meeting of the graduates of the high school of Portland in the school room of the Central building, to take preliminary steps toward the organization of an alumni association. It is the intention of having a reunion of all the graduates of this school during commencement week. Graduates are requested to attend the meeting Monday evening.

[illegible] IMPROVEMENT.—The work on Capt [illegible] new wharf at the foot of B street is progressing very rapidly, and at the rate at which operations are being now pushed this important improvement will soon be [illegible]. Most of the new flooring has been [illegible] and the timbers for the second [illegible] portion of the way has been [illegible] in a month the new wharf will [illegible].

[illegible] WANTED.—Of John B Stimpson, who came to Oregon from Springfield, [illegible] county, Iowa, four years ago. When last heard from (December, 1877,) he was in [illegible]. His sister will be thankful for information of his whereabouts. Address Miss [illegible], care of Band of Helpers [illegible]. Eastern and Southern Oregon papers will confer a favor by copying this notice.

[illegible] WAY.—R. C. Janion & Co have the following vessels on the way with cargo for this port: The Dovenby (now due) and [illegible] via Honolulu. The River Clyde [illegible] and by last advices the Scawfell [illegible] for Victoria and this port. From these indications Oregon must be looking up, and the business of that respectable old firm booming.

CRICKET.—A match between selected married and single elevens will be played on the [illegible] grounds, South Portland, this afternoon. Wickets will be pitched at 3 o clock. Regular club meeting at Creighton & Stearns at 7 30 o'clock P. M.

CHRISTIAN UNION.

The annual meeting of the Christian Union took place on Wednesday evening at the Unitarian church. The officers and committees of the previous year were re elected and several interesting reports made.

The committee on public institutions through Miss Helen F Spaulding reported in all twenty five visits and the distribution more especially at the insane asylum of a large amount of reading matter (1 300 papers and magazines) together with flowers slips for window plants scraps for rag rugs etc. More papers of good literary character are needed specifically some French and German periodicals also fashion books and plates for those who make garments. The committee adds—"Our faith in this simple work of visiting institutions is steadily deepening and growing. We find a result growing out of a personal acquaintance with these unfortunate people from occasional words of sympathy or cheer or comfort as the case may be which is helpful not only to the one who receives but to him or her who gives. It is a work worthy of all encouragement and gratefully appreciated by the patients in the asylum or county farm and the inmates of the jail not a few of whom are as susceptible to the comforts and refinements of home or the amenities of social life as any of us who are here.

The committee on temperance reported the fountain on Alder street and added that Mr Barrett plumber also Mr [illegible] painter would make no charge for work performed—indeed offered free services for additional work if called for.

A paper of great value was read by Mrs S J Burrage on Wise and Unwise Charity. As the leading thoughts in it are of interest to the general public—containing also principles too much neglected—a few paragraphs are subjoined.

After noting the peculiar trial involved in poverty and the partial blameworthiness of most of it the essayist illustrated forcibly its chief evil namely the lack of will power and decay of self respect. This is often inherited and the charity needed is of that mood which is thoroughly imbued with patience and pity for weaknesses and sins. The objective point for all wise philanthropy to work at is the building up of the infirm purpose broken courage or self disesteem which characterize so many dependent poor. They are to be inspired with hope need to be taught not only that Christianity which bids them to quietly submit but that of working out their own salvation from a present hell of starvation and disrepute. The subject of professional beggars was summarily disposed of. Never give money. A quarter of a dollar to get rid of such means so much liquor or taking 25 cents worth of the little manhood the subject may still have. "For the truly deserving poor we cannot do too much so that it be wisely done. Even here we may injure character and if possible assistance should be in the form of a loan—or work. Referring to benevolent societies the writer noted the evil of a multiplication of such in the community. Some organizations are a necessity but unless great care is exercised they are waited upon in turn by a certain class of thriftless or guilty poor as if each time a fresh case of misfortune. Also a needless amount of machinery is brought to bear which wears the public patience. Some method of intelligence between the various organizations or a central bureau should be devised or we shall be making paupers when we mean only to aid the unfortunate. Work done distinctively for children is most encouraging to philanthropic effort. The suggestion was made that every one ought to be a member of and subscriber to some general organization through which proper attention could be insured for applicants that church societies (except in peculiar cases) should confine themselves to the relief of their own immediate parishes. What we had better not do is as important as anything else.

The essay closed with a strong appeal to that individual charity which at some additional cost and inconvenience if necessary gives employment to the deserving poor. It is no time to save a dollar or two upon the household sewing or washing when help to a hungering family may be thus given by it. Some central establishment for furnishing work would go further to remove the worst evils of poverty than all systems of giving doles however sentimental and easy they may seem.

The attention of the Union was then called to that benevolent institution of Portland in which a Home for worthy women strangers or otherwise is provided gratuitously if the necessity exists but preferably by payment of small boarding rates. It was reported that forty places have been found for women, in various employments during the past two months. What the institution most needs is not money but the sympathy and encouragement socially and in other ways of those whose interest will help to elevate and define the character of the philanthropy. A Women's Home is a form of Christian work distinct from any other, and with a distinctive mission—one in which humanity and humanizing elements rather than charity are uppermost.

After an interesting discussion of these and kindred topics the meeting was closed with devotional exercises

WRECKED.

THE AMERICAN BARK FOREST BELL FOUND [illegible] ON A ROCK OFF THE CHINESE COAST—A TOTAL WRECK.

Mr Noyes the gentlemanly purser on the steamer Bonita has recently received a letter from Capt. Allen Noyes his father who at the time of writing was in Hongkong. The letter bears date of March 10th. We have been kindly permitted to read the letter and also an extract from one of the Hongkong papers from which the following particulars of the loss of the American bark Forest Bell were obtained. This vessel was lost at Kwanling Bay at the south end of Formosa on the 10th of last February.

The Forest Bell was an American bark of 1 296 tons. She left Cardiff on the [illegible] October for Hongkong with coal to order. Everything went well until the evening of the 10th when it came on very rough and the bark was under close reefed topsails. On the 10th they had a very strong northeasterly breeze and an exceedingly high sea the weather being at the time fine and clear. At about twenty minutes past eight o'clock in the morning the vessel suddenly struck on an unknown rock between Little Botel Tobago and Gal [illegible] The Bell [illegible] was then bearing nearly N [illegible] There was between twenty six and twenty eight feet of water over the rock. The pumps were sounded and it was seen that the vessel was making water. The steam pumps were then got underweigh but she made two feet per hour more than could be pumped out. The captain then ran the vessel for Formosa under a fresh breeze in order to save life. At 2 o clock P M the same day the vessel was beached in Kwanlang Bay having then twelve feet of water in her hold. The captain stopped by the ship for two days, when he took the long boat with a portion of the crew and provisions and made for Takao to obtain assistance. When about twenty miles out they fell in with a Chinese gunboat which at once took them on board and turned back to the scene of the wreck. All the crew with the exception of the officers carpenter and cook who were left in charge were taken on board the gunboat and went to [illegible] where they arrived on the 22d. At that place Captain Noyes chartered the British schooner Onward a vessel of 210 tons and left in her on the next day in tow of the Chinese gunboat, for the wreck where they arrived on the 25th of March. The United States gunboat Ranger arrived at the scene of the wreck on the [illegible]th when Capt Noyes went in her to try and find the rock upon which the vessel struck. After sounding about they were unable to find anything and returned. The crew in the meantime had saved a quantity of sails rigging donkey engine chains anchors and boats. The captain then wrote to the mandarin at the place asking him for protection of the hull and cargo whilst the captain went to Hongkong to obtain further assistance. On the night of March 5th when the crew were on board the schooner Onward and the captain on the Ranger the Chinese took advantage of no person being on the wreck to set fire to her and she was burnt down to the water's edge. On the morning of the 6th they left the scene and came on to Hongkong in the Onward, where they arrived on the 8th

The Forest Belle was a very handsome vessel and was built and launched about one year ago at one of the ship building ports of Maine. She was valued at about $65 000. Mr M S Burrell of this city owned an ⅛th interest in the vessel. Captain Noyes also owned an equal share. There was no insurance on the vessel except on the interest held by Capt Noyes. In his letter the captain states that he will sail soon on the Allen Besse for this port. He may be expected to arrive here about the 10th inst

An Astonishing Fact.

A large proportion of the American people are to day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden, instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent

The Daily Oregonian.

SATURDAY MORNING, MAY 4, 1878.

SOMEBODY'S MOTHER.

The woman was old and ragged and gray,
And bent with the chill of the winters's day;

The street was wet with a recent snow,
And the woman's feet were aged and slow.

She stood at the crossing and waited long,
Alone, uncared for, amid the throng

Of human beings who passed her by,
Nor heeded the glance of her anxious eye.

Down the street, with laughter and shout,
Glad in the freedom of school let out,

Came the boys like a flock of sheep,
Hailing the snow piled white and deep.

Past the woman so old and gray,
Hastened the children on their way,

Nor offered a helping hand to her,
So meek, so timid, afraid to stir

Lest the carriage wheels or the horses' feet
Should crowd her down in the slippery street.

At last one of the merry troop—
The gayest laddie of all the group.

He paused beside her, and whispered low,
"I'll help you across if you wish to go."

Her aged hand on his strong, young arm
She placed, and so, without hurt or harm,

He guided the trembling feet along,
Proud that his own were firm and strong.

Then back again to his friends he went,
His young heart happy and well content.

"She's somebody's mother, boys, you know,
For all she's old, and poor and slow;

"And I hope some fellow will lend a hand
To help my mother, you understand,

"If ever she's poor, and old and gray,
When her own dear boy is far away."

And "somebody's mother" bowed low her head
In her home that night, and the prayer she said

Was: "God be kind to the noble boy,
Who is somebody's son and pride and joy!"

PERSONAL AND GENERAL.

"Blue Jeans" Williams of Indiana has got the presidential fever.

Chicago *Times*: We should dearly love to know how much Montgomery Blair's ashes would weigh.

Since the seven successive suicides of Mr. Mantalina, says the *World*, there has been nothing like the confessions of Mrs. Tilton.

J. G. Holland has been advised by his physicians to cease from lecturing; and as he has made the snug sum of $120,000 in that way, he can afford to take their advice.

One of Brigham Young's daughters has just married a former hostler in her father's stable, who already has one wife. She is homely, but brings her groom $20,000.

His Newburyport neighbors are thinking of bringing out Caleb Cushing as an independent candidate for congress. He is only seventy-eight years old, and is as smart as most men of fifty.

Mr. Schuyler Colfax will deliver the oration at the laying of the corner stone of an Odd Fellows' temple at Austin, Texas, in September. There will be large delegations from all parts of the country.

Mrs. Pamela Brown, a daughter of E. Williams of Williamstown, Mass., and the widow of Maj. Gen. Jacob Brown, famous in the war of 1812, died recently at Rye, New York, at the very advanced age of 93 years.

Talmage's Sunday sermon: "Spend your Sunday's well. Tell me how a young man spends his Sundays, and I'll tell you what are his hopes in business and of salvation. For our bodies are seven-day clocks, and need to be wound up once a week."

London *Court Journal*: "Foreigners speak of the president's dinners at the White House with great distaste when the matter is discussed, and the idea of having tea and coffee served with, or after the soup and fish, strikes all with something approaching disgust.

"Bob," the sorrel war-horse which Stonewall Jackson was riding when he received his fatal wound, is still living, at the age of twenty-three, and retains much of his old vigor. He is owned by a brother-in-law of the general, in Lincoln county, North Carolina.

FINANCE AND COMMERCE.

Silver coin, 2@2½ per cent. discount.

New York Freights and Markets.

NEW YORK, May 4.—The freight market continues without life, except so far as shipments from regular houses, but these are not shipping as freely as formerly, and what they do ship is more to take advantage of low rates of freight than because they actually need goods. The rates are more steady at last quotations. The Loretta Fish will sail tomorrow, having been detained for a lot of resin. The Harvey Mills is well down in the water and wants about 700 tons to finish, which she will do by the 11th. Her cargo includes considerable coal, railroad iron, cement, etc.

Railroad freights are quite active. The Chicago and Alton route closed their offices on the 1st inst. Shipments of the past week include 911 packages tobacco, 125 bbls currants, 55 bxs raisins, 210 bags rice, 750 bxs candles, 100 bbls oatmeal, 157 cases canned goods, 38 bbls whisky, 10 octaves brandy, 25 cases sauce, 50 cs milk, 50 cs codfish, 50 kegs herring, 50 cs and 200 kegs syrup, 100 baskets and 20 cs wine.

Markets remain dull. Flour more active, induced by the burning of the Minneapolis mills, and the product of these were 10@25c higher. Wheat dull and fully 2@4c lower to sell. Pork in better export demand, $9 75@10 25. Rio coffees quiet and firm on small supply. Refined sugars in better demand and a shade firmer. Teas in moderate demand. Hides quiet and firm. Leather less active but firm. Borax weak, 7c would buy large lots of California. Petroleum and turpentine unchanged. Wool unchanged; the only feature in the market the past few days has been in the sale of the new spring clip of California; it has proved of quite an attractive quality, and some of the closest buyers have been induced to take hold with a fair show of freedom considering the condition of the market; sales of 92,000 lbs. of new spring at 20@26c, 38,000 pounds of fall private.

San Francisco Markets.

[BY TELEGRAPH.]

SAN FRANCISCO, May 3.—Flour—Quiet and steady superfine $5@5½; extra $6¼@6¾, jobbing $6¾@7.

Wheat—No demand; holders firm; choice milling, $2 15; fair $2 10@2 12½; shipping, nominal.

Barley—Dull; feed, very dull, 97½c@$1; brewing, firm, $1 15@1 40.

Oats—Firm and active; choice feed, $1 40@1 45.

Corn—In active demand at full prices; large yellow, $2 05.

Hay—Dull; choice wheat, $17; medium grades, $10½; stock, $8@9.

Potatoes—New, firm, 2½@4c; old, dull 3@3½.

Wool—Better grades active and firm; week's sales, 1,000,000 pounds; poor burry, 12@12½c; burry, 14@17c; good free, 18@22c; northern and select lots, 24@26c.

Liverpool Markets.

LIVERPOOL, May 3.—A leading grain circular says the grain trade during the past two days has been quieter. The late advance in wheat, however, is fairly maintained upon a moderate extent of business here and in neighboring markets. Since Tuesday business has moved slowly. The tendency of prices regarding wheat and maize has been slightly in favor of buyers. In this market to-day there was a limited demand for wheat. All descriptions declined one penny to two pence per cental. Flour slow without quotable alteration.

English Finances.

LONDON, May 2.—Yesterday's Bank of England return is regarded as distinctly unfavorable. The proportion of reserve to liabilities has descended to an extraordinarily low figure. The *Financier* says: Should there be an active foreign drain of gold, the bank's minimum rate of discount might be expected to leap five per cent. in a week. The rate is now three per cent.

Crop Reports.

NEW YORK, May 3.—The *Times* has special crop reports from 29 states and one territory, showing a wonderfully forward season and the largest crops in the history of the country are in an advanced state of growth, especially grain of all kinds. All previous local reports of the unprecedented increase of acreage of wheat in the western states are fully confirmed.

Philadelphia Wool Market.

PHILADELPHIA, May 3.—Wool quiet, steady, California unchanged.

Shipping Intelligence.

The steamship Idaho will be due here from San Francisco to-morrow evening.

The steamship California will sail for Sitka and intermediate ports to morrow morning.

The Br ship Abby Cowper, hence with a wheat cargo, arrived at Falmouth April 30th.

The *Astorian* says: There is at present more business at Knappton in the shipping line than at Astoria. The barkentine Portland completed her cargo last evening for San Francisco. The Rival and the Quickstep are loading for San Francisco, the Webfoot for San Pedro, and the Buckeye for St Johns.

[BY TELEGRAPH.]

SAN FRANCISCO, May 3.—Arrived—Ship Ericsson, Nanaimo; ship South America, New York; str Dakota, Victoria.

Sailed—Bark Revere, Port Townsend; bk Montana, Port Townsend.

GEO. E. COLE, P. M.

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Acute Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself, Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.

GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Billiards.

CHICAGO, May 3.—George Slosson, in an exhibition game of billiards with three balls, made 630 points in seven innings.

A Shooting Match.

Dr. Carver, of San Francisco, arrived here to-day, intending to arrange a shooting match with Captain Bogardus, but the engagements of the latter making this impossible, Carver will proceed to Europe without doing more than giving an exhibition of his skill here.

Affairs on the Rio Grande.

GALVESTON, May 3.—Nothing of interest transpired on the Rio Grande to-day. The civil and military authorities are taking measures to prevent a violation of the neutrality laws.

The *News'* correspondent says: It is the opinion of the best informed people on the border that the revolution will be successful. Diaz's officers find it difficult to prevent garrisons from pronouncing for Lerdo.

A Railroad Defeated.

CINCINNATI, O., May 3.—The two million additional bond bill for the completion of the Southern Railroad was voted on in this city to-day and defeated by a majority of 219 in a total vote of over 22,000.

Failure of the Remingtons.

NEW YORK, May 3.—E. Remington & Sons, 281 Broadway, manufacturers of rifles, ammunition, etc., at Ilion, N. Y., have become financially embarrassed and have submitted their affairs to their creditors. They propose to issue bonds to run for five years at 7 per cent. interest to their creditors for the amount of their claims, secured by mortgage on their armory building at Ilion. Their liabilities amount to about $1,000,000, and their assets are valued at $4,000,000, but are not immediately available. The assets consist of the armory at Ilion, which with real estate and machinery is valued at $1,500,000; finished arms valued at about $900,000; claims against the Egyptian and Mexican governments for about $500,000. Their liabilities mainly are promissory notes, and are distributed all over the country. A meeting of creditors was held a few days ago at Ilion at which the affairs of the company were discussed, and the creditors expressed themselves in favor of aiding the company in order that the business might continue.

An Old Offender.

CINCINNATI, May 4.—Capt. J. W. Lees, chief of the San Francisco detective force, is here, and pronounces Doe, the forger, arrested here some time since, identical with Chas. Gucady, with whom the San Francisco authorities had so much trouble in the same line of work as that for which he is captured here. He says the man's real name is Carlo Sevocvict, and that he is one of a noted family of forgers, his three brothers being as expert in this work as he. He is fully identified as the man who committed a murder in England years ago, and who escaped from Constantinople to Russia and thence to this country. His bail was fixed to-day at $8,500. Lees says he thinks Markes, who operated with Doe, was also with him in California. Doe, it will be remembered, relieved the First National Bank of Chicago of a considerable sum on forged paper.

Equestrianship.

NEW YORK, May 4.—At Prospect Park, Brooklyn, Peralta, a Mexican, began at 4 this morning the attempt to ride 305 miles in 15 hours. He made the first 100 miles in four hours and twenty minutes. He changes horses every mile. The fastest mile was made in two minutes and thirteen seconds. 150 miles were covered in seven hours and twenty minutes. A horse having stepped on Peralta's foot, he stopped to bathe it. He completed his 200th mile at 1:50 P. M.

The McCarty-Ten Broeck Match.

CHICAGO, May 4.—It has been arranged that the California race mare, Mollie McCarty, who is to meet Ten Broeck July 4th, at Louisville, shall leave for Kentucky May 12th. She will go direct to Kentucky, the trip occupying ten days. She will pass through Chicago, and the horsemen of this city will give her an informal reception. Separate quarters have been procured for her at Louisville, and there will be a large delegation of horsemen to meet her there.

Russian Coming West.

HORNELLSVILLE, N. Y., May 4.—A person in full Russian uniform passed through here on the Erie train this morning. He has a through ticket from New York to San Francisco.

Trial of Gen Kautz.

OMAHA, May 4.—In the court martial trial of Gen. Kautz, a letter of Gen. Sherman approving the action of Gen. Kautz, said letter being written before Judge Advocate Dunn's opinion, was introduced in evidence. In the question whether the presence of President Hayes, Gen. Sherman and the secretary of war was necessary as witnesses, they having been summoned by the defendant to attend as witnesses, it was decided by the court that what was to be proven by them was unimportant and therefore they need not attend.

John Morrissey's Funeral.
